## **SM** SCANDIA MARINE PTE. LTD.

www.ScandiaMarine.com  
HQ - Tuas, Singapore

---

### **Full-Time Employment. Engineering / Mechanical / Manufacturing / Marine.**

Scandia Marine Pte. Ltd. is the Authorised Dealer and Distributor in South East Asia for **STEYR MOTORS GmbH**, a world-leading manufacturer of light-weight, high speed, high tech marine diesel engines.

Scandia Marine is also the sole worldwide manufacturer of the Scandia Float, a pipeline buoyancy unit used in the dredging, port construction, oil & gas, and marine sector.

With continued growth and expansion, we are looking to hire up to 4 technicians to join our small/medium sized dynamic and flexible team based here in Tuas, Singapore. All applicants should have a strong mechanical hands-on aptitude and thrive in a multi-tasking, always exciting, hard-working but fun environment.

⇒ **Positions Available :**

1. First Engineer, Engine Technician. Steyr Motors, Singapore based, regional travel.  
Salary range: S\$3,800 – S\$4,200 / month. 5-day week.
2. Second Engineer, Engine Technician, Manufacturing fabrication, Singapore based, in-house and occasional on-board vessel work. Parts / Inventory / Forklift Handling.  
Salary range: S\$2,700 – S\$3,100 / month. 5-day week.
3. 2 pax - Workshop Engineer. Multi-task, engines, fabrication, manufacturing, etc.  
Salary range: S\$1,800 – S\$2,500 / month. 5 ½ -day week.

Combining the best of European and Singaporean works ethics, we are always pleased to see good written qualifications, however, great importance is also given to aptitude and ability, effort, personality, loyalty, and results.

Under European ownership and management (26 years in Singapore), we are established and know what we are looking for. Being the General Distributor for Steyr Motors means that we have direct factory communication, technical support, training, and knowledge. With an extensive parts inventory, and a will to get things done, we always satisfy our customers with integrity. For our own Scandia Floats made in Singapore, we consider ourselves a possible world leader.

All positions will have some, all, or a mixture of the below responsibilities in line with salary, age, experience, and ability.

⇒ **Roles & Responsibilities :**

- Perform scheduled & preventive maintenance
- Perform field trouble-shooting & rectification
- Recommend necessary services/repairs & parts replacement
- Engine ECU laptop diagnostics and faultfinding.
- Develop rapport with existing and new clientele
- Small marine engine, workshop strip-down, re-build, testing.
- Marine Waterjet maintenance. Assembly / Disassembly.
- Operation of high-pressure foam injection machine.
- Plastic extrusion welding.
- Forklift driving, vehicle loading / unloading.
- Multiple hand tool operations.
- First level drilling, grinding, spot-welding.
- Spare part picking, packing, dispatch.
- Workshop house-keeping
- Company vehicle washing.
- Multiple workshop tasks as required.
- Any other ad-hoc duties as and when assigned
- Hard work and fun.
- Rewarding flexible teamwork.

⇒ **YOU :**

- Have basic knowledge of engines and/or automotive technology
- A good mechanical aptitude
- A good command of English
- A wish to travel
- A pride in a good job that is well done
- Computer literacy equal to job position
- Able to work independently
- Enjoy working in a team
- Enjoy overseas travel
- Enjoy variable and multi-tasking work
- Are able to drive forklift and/or car/van and/or motorbike
